

## THE CANVASS.

We learn that Mr. GILMER contemplates commencing the Gubernatorial canvass in the Mountain District about the first of May. In ample time his list of appointments will be published.

We trust that our friends at every point will keep us informed as to our Candidate's progress and the movements of the people. Lying locc-foco scribblers will assail the one and misrepresent the other, at every point. This suggestion is a most important one, and, we earnestly trust, will be heeded.
